

Awakening

An In-Depth Soul Reading with Demo DiMartile

The awakening of Human Consciousness is upon us. We are evolving out of the dark dream of powerlessness and moving into our Light and its promise. Now is the time to let go of the past, make peace with unresolved issues & grow into the enormous power of love and joy that is the birthright of every soul.

Your Astrological birth chart is a personal roadmap for your soul's journey toward living a purposeful life and fulfilling your potential.

In a 1 1/2 hour recorded Soul Reading, the following is covered in depth:

Your Soul Path

Who are you? What is your Life purpose? What is the contribution you are here to make? Validating character attributes to *empower your journey*.

Shifting From Fate Into Destiny

Fate is the result of karmic lessons unlearned & accepting their importance in growing your soul. Destiny is result of your willingness to learn your life lessons and make peace with your Fate.

Love & Money

Love & Money show how you give and receive or how you withhold and deny yourself. Both reflect how you value yourself and your ability to transcend lack, limitation and struggle.

Your Divine Compliment

Are you ready for your *Divine Compliment*? Not your soul mate or your cell mate but the one who truly resonates with you energetically. Understanding magnetic attraction.

Talent, Career Direction & Service

What stands in the way of your success and how to overcome it... Identifying your innate gifts and how best to utilize them professionally.

Taking Back Your Power

The psychological impact of your parents and how to overcome their negative effects on your subconscious beliefs.

YOUR COSMIC CONNECTION

Realigning with your Higher Self Guidance for self-acceptance, self empowerment & awakening spiritually.

Health issues, & creativity will be explored along with your questions or concerns. I draw from a strong intuitive faculty & clairvoyant ability, timeless healing methods & 40-years of Spiritual Life Coaching that will support the transformation into being your authentic self. My purpose is to inspire you to remember who you truly are so that you can live your highest potential and experience greater clarity in fulfilling your Destiny. Are You Ready?
